**Subject:** Proposal #11 Housatonic Fisheries Assessment

October 13, 2006

To Whom It May Concern:

I support the proposal #11 - Housatonic Fisheries Assessment, submitted by Massachusetts Division of Fisheries and Wildlife.

As a fisherman in the Berkshires on the Housatonic River who is interested in recreation and conservation, I feel that it is imperative that something is done to compensate for our loss of resources relative to pollution of the Housatonic River by performing research and creating programs to support the fish and their habitat.

Sincerely,

Mark Patenaude

Berkshire Fly Fishers Member
