Subject: grant funding

To whom it concerns;

On behalf of the Environmental Science class at Lee High School (25 people), and Berkshire Community College's Conservation of Natural Resources class (20 people), we'd like to offer our support for a grant application funding Tim Grey and the Housatonic River Initiative. We believe he provides a valuable service to the river community from source to sound for the continued effort of its clean up and for the preservation of this valuable resource for future generations. We hope you'll look upon his application favorably.

Sincerely,
Tim Hickey, Instructor
Berkshire Community College, adjunct faculty Lee High School
