Re: City of Pittsfield's Housatonic River Museum Proposal

Dear Members of the MA SubCouncil Trustee,

Here at Conte Community School we are always open to new partnerships to contribute to our high quality of education. Conte Community School is a caring and safe learning environment in which respect for self and others is essential.

We would be happy to give our students and the community the opportunity to discover some of these fascinating exhibits at our school. We believe that the proposed exhibits will enhance our educational curriculum and we greatly support the approval of this proposal.

Sincerely,

Dr. Elizabeth Neale
Principal
Conte Community School
